

BANK AGAIN SPONSORS 7TH CORN EXHIBIT

BIG CROP THIS YEAR EXPECTED TO MAKE THIS SHOW THE BEST YET

MANY PRIZES ARE OFFERED

Winner of International Show to Judge Local Exhibits. No Entry Fee To Be Charged

The seventh annual corn show has been announced for December 10-11-12. As usual it is being sponsored by the First National Bank and Citizens Trust Company, who are offering an unusually large list of prizes. Competition is open to every person in Putnam county provided that the corn has been grown during the year 1931.

Much interest is always shown in this show and with the wonderful season that we have had it is thought that this year's show will be larger than ever. However, any exhibit will have to be a very wonderful sample to outdo some of the exhibits of years past for the Putnam show is known as one of the state's best shows.

The usual features will be held in connection with the show. The Purdue Corn Club will be held if at all possible and the winner of this year's international show will be obtained as show judge. Herbert Watson of Tippecanoe was the international winner and judge last year.

It is hoped by the Corn Growers association that every farmer in the county will make an effort to participate so that he may compare his corn with that of other growers. The show also gives everyone a chance to pick up a good amount of prize money as well as making a name for himself, thus enabling him to sell his crop at a premium for seed. There is no entry charge and everyone is urged by the management to enter.

Mrs. Haverly Hurt In Crash

GREENCASTLE WOMAN SUFFERS INJURIES ABOUT HEAD AND FACE THURSDAY

Mrs. William Haverly, 210 east Walnut street, suffered cuts and bruises about the face late Thursday afternoon, when an automobile driven by her husband collided with a hay wagon near Fillmore.

According to Mr. Haverly he was driving toward Greencastle when he started to pass the hay wagon near the coal shutes just east of Fillmore. He said just as he reached the wagon, the driver, who was a mute living nearby, evidently backed the wagon, causing the hay frame to strike the windshield of the Haverly auto.

The hay frame broke through the windshield and struck Mrs. Haverly's head, forcing it back over the front seat. It was first feared she had suffered serious injuries but it was later found that her injuries consisted of cuts from broken glass and bruises about the face.

WORK STARTS ON CHANGING FORCE MAIN

CITY DRINKING WATER SUPPLY NOW PIPED THROUGH TEMPORARY LINE

CHANGE MADE LAST NIGHT

Water Supply Shut Off For Several Hours. To Lower Big Main Due To Paving.

The Greencastle Water Company started work Thursday afternoon on lowering the big force main from the Big Four railroad arch to the city limits on north Jackson street, and as a result, the city drinking water is being pumped through a temporary line.

Lowering of the main was made necessary by the paving operations on State Road 43. Workmen labored all night Thursday, in making the change to the temporary line. The water was shut off for several hours and local residents used the reserve supply in the standpipe. The water is now coming through the temporary line and will continue to do so until the new main is ready.

The completion of this work depends upon the weather and other conditions, it was said. However, all efforts will be made to push the project along.

Due to the change to the temporary line, the city water had a muddy appearance Friday and was disagreeable to taste. It was suggested from several sources that the water be boiled before drinking if it does not clear up. Considerable complaint was heard regarding the appearance of the water.

Jury Returns Verdict Of \$1

KRUECK & LAEMING COMPANY, INC., SOUGHT \$750 FROM WM. W. KEY

A verdict of \$1 in favor of the plaintiff was returned by a petit jury in the Putnam Circuit court late Thursday afternoon in the suit on note of the Krueck & Laeming Company, Inc., against William W. Key, of Rosedale. A demand of \$750 had been made by the company.

Trial of the case began Thursday morning and several witnesses testified during the day before final arguments began early in the afternoon. The verdict was returned shortly after 4 p. m. by the jury of farmers.

The plaintiff alleged it was compelled to repossess a threshing outfit sold to Key and in reselling it had to take a loss. They demanded the difference between the re-sale price and an original note given by Key in payment for the threshing, plus court costs and attorney fees.

Charles McGaughey of this city defended Key and Chase Harding and Homer K. Schwindler were attorneys for the company.

The defense based their case on the contention that the note had been cancelled by delivery of the combine back to the corporation.

It was said the \$1 verdict places the cost of the case of the plaintiff inasmuch as it requires a verdict of \$5 or more in favor of plaintiffs in such actions to place the cost of the defense.

Dr. and Mrs. W. D. Conn of Bainbridge, were visitors in Greencastle, Friday.

LAST MEETING IN LANDSCAPE PROJECT HELD

R. B. HULL, LANDSCAPE ARCHITECT, TALKS TO HOME ECONOMICS CLUB WOMEN

SHOULD RETAIN SCENIC ASSETS

Women Bring In Maps For Final Suggestions at Meeting In Court-house Friday

Members of Putnam county home economics clubs and visitors heard an address by R. B. Hull, extension landscape architect from Purdue university, at a meeting in the assembly room of the courthouse Thursday evening. Mr. Hull spoke on "The Indiana Landscape of the Future."

Mr. Hull emphasized in his talk the importance of planning for future changes which are certain to come with highway development as well as economic and industrial changes. "Our country landscape is changing rapidly," Mr. Hull stated, "and the lack of proper attention to our landscape assets is permitting unnecessary ugliness to increase everywhere."

The present interest in home ground development will naturally extend to the improvement of public school grounds, rural villages, and the road-sides, Mr. Hull believes. An evidence of this is the fact of proposed legislation in some 23 states to regulate those enterprises which are most at fault in the disappearance of landscape beauty. Accepted standards to regulate roadside stations, markets, and commercial advertising, are of great importance, he pointed out.

The speaker reported an increasing interest on the part of organizations in Indiana in roadside improvement and stated that the highway commission only awaits for the necessary legislation to give this phase of highway development greater attention.

Reforestation, town planning, roadside regulation and planting, park and home ground development, were all stressed as important phases of landscape improvement which must receive greater attention in the future if Indiana is to protect and improve her landscape assets.

At the meeting Friday, which was the final session of the home economics club members who have been taking this project during the year, maps of grounds which the members have made, were gone over and final suggestions given by Mr. Hull relative to planting over a period of years in the future. These maps and suggestions will be a guide for the members in improving their home grounds.

Mr. Hull stated Friday morning that 16 counties were taking the landscape project this year, which is a preliminary to be followed later by projects on gardening and school ground development, and possibly organization of roadside improvement associations.

OFFER MORE TESTIMONY IN BEHALF OF MRS. SIMMONS

LEBANON, Ind., Oct. 16 (UP)—The defense in the trial of Mrs. Carrie Simmons planned today to offer additional testimony designed to refute prosecution claims that she inserted strychnine in the picnic sandwiches which took the lives of her two daughters last June 21. A prosecution expert previously had testified that tests showed conclusively the strychnine capsules were placed in the sandwich meat when they were made, several hours before the Simmons family's arrival at the picnic.

Mrs. Claude White of Charlottesville described an experiment in the Simmons kitchen on Sept. 9 and 10 in which she reconstructed the making of the fatal sandwiches. John Simmons, husband of the defendant, and other relatives witnessed the test.

GRAND JURY ENDS WORK

PROSECUTOR REFUSES TO MAKE STATEMENT UNTIL JUDGE ACTS ON REPORT

The Putnam county grand jury which has been in session two days, completed its work Friday afternoon, but the nature of its investigations were not divulged. Due to the fact that Judge James P. Hughes was out of town Friday afternoon the grand jury report was withheld until his return.

Only one additional witness was to testify Friday afternoon, Prosecutor Marshall Abrams stated. He refused to make a statement as to whether or not indictments would be returned.

TWO BANK BANDITS HELD; THREE OTHERS SOUGHT

TERRE HAUTE, Ind., Oct. 16 (UP)—Two bandits, captured near Rosedale yesterday after participating in the holdup of the Montezuma State Bank, told local authorities last night that their names are George Louis Shinaabarger, 23, and Estel H. Ray, 20, both of Peoria, Ill. They had originally given aliases, they said.

Shinaabarger was held here for further questioning and Ray was removed to the Parke county jail at Rockville.

Authorities continued a search for three other men who escaped after robbing the Montezuma bank of approximately \$1,100.

JUDGE HEARS ARGUMENTS IN CAPONE CASE

INCOME TAX FRAUD TRIAL EXPECTED TO REACH JURY BY EVENING

LOOKS DARK FOR GANGSTER

Federal Attorneys Present Strong Case Against Underworld Leader. Defense Gloomy

CHICAGO, Oct. 16, (UP)—The zero hour for Al Capone ticked nearer on the clock in federal district court today.

Between the clock ticks prosecution attorneys intend to insert arguments to clinch the United States government's income tax fraud case against the gang leader.

His attorneys wound up their defense yesterday and assistant prosecutor Jacob I. Grossman launched the appeal to the jury that opened the government's final attack on the man it has sought for three years to imprison.

Grossman told the small town tradesmen on the jury: "You have the privilege of putting the stamp of disapproval on the whole Capone organization and the conduct of this defendant. Under the evidence, you can do nothing but find him guilty."

The jury may receive the case before noon tomorrow. Under the four-hour argument allotment to each side, the government should conclude and the defense get well started today.

Capone, pictured as gang despot and Florida playboy with wealth to throw away by the prosecution and by the defense as an "organization" man who got his hands on a lot of money and wasted it betting on second-rate horses to the tune of \$375,000 in six years, is specifically charged with evading \$215,000 income tax.

"Where did he get the money?" asked Grossman, settling on the most important question of the nine-day trial.

He spoke of Capone as living like "an Indian prince" on his Florida estate and declared he lived so on money drawn from his Cicero gambling houses.

Defense attorney Albert Fink predicted the defense policy when he said: "I have no illusion about what is going to happen this or any of the so-called gangster cases until the supreme court takes hold of it."

The case came to conclusion rapidly yesterday. Eight former bookmaker pals of Capone testified that he lost a total of \$375,000 "playing the ponies."

PUTNAMVILLE GIRL SUES FOR \$5,000

DORIS COOPER, 18, ASKS DAMAGES OF EDWARD LEE AND ROY WATSON

INJURED LAST JULY 30TH

Alleges Truck In Which She Was Being Taken Home By Defendants Was Not In Good Repair

Doris Cooper, 18 years old, of Putnamville, by her next friend Laymon Cooper, filed suit in the Putnam Circuit court Friday against Edward Lee and Roy Watson, for damages of \$5,000. The suit is the result of injuries suffered last July 30 by the plaintiff when she alleges she fell from a truck belonging to the defendants.

The plaintiff alleges that she and several other young people of the Putnamville community were employed last July to pick beans for the defendants who were partners in operating a farm. She alleges the employees were taken to and from their work in a Ford pickup truck, which was out of repair and which condition was known to the defendants.

According to the plaintiff she and Minnie Crawley and Frances Crawley were riding on the truck body enroute home when the bed of the truck suddenly loosened, throwing them violently to the pavement.

The plaintiff alleges she was unconscious for twelve hours, suffered scalp wounds, fractured skull, partially dislocated vertebrae of the neck, her spinal column and muscles in her back were badly wrenched, nervous system shocked, and she was taken to a hospital for an X-ray and remained in bed four weeks as a result of the accident.

She alleges that she continues to suffer constant physical and nervous pain, her sight and hearing have been impaired, the hearing of her left ear has been practically destroyed, and the nerves which control her hearing and equilibrium of body have been injured and that since her injuries she has been unable to control muscles of her body in walking.

According to the suit the plaintiff has spent \$300 for attention of a physician, nursing and hospital treatment. She alleges she will be forced to continue to spend large sums of money in the future. She demands damages of \$5,000.

Hays and Murphy are attorneys for the plaintiff.

Noted Inventor In Death Coma

THOMAS EDISON'S HOURS ARE NUMBERED ACCORDING TO PHYSICIAN

WEST ORANGE, N. J., Oct. 16, (UP)—Thomas A. Edison's hours are numbered.

He was in a coma today, presaging death, and his physician, Dr. Hubert S. Howe left New York shortly after 7 a. m. to be at his bedside.

At that hour, Howe was uncertain whether he would have to remain constantly beside the dying inventor. There was certainty only that Edison had entered during the night into the coma from which there is no rousing.

The aged inventor who has fought off for weeks, and who for several days has taken no nourishment, dropped into a coma last night. For two or three days he has been in a stupor.

In a garage on the grounds a score of newspapermen and telegraph operators awaited the announcement they would relay over electrical transmission lines, notifying the world that Edison was dead.

Dr. Howe would not hazard a guess as to how long the patient would remain in a coma.

The funeral of Mrs. Charles Disbrow, north Jackson street, who died Wednesday morning at the Robert Long hospital in Indianapolis, was held Friday afternoon at 3:30 o'clock at the McCurry funeral home. Dr. A. E. Monger was in charge of the services. Interment was in Forest Hill cemetery.

Sees Gloomy End

H. G. Wells, distinguished English novelist, sociologist and out-looker of history, painted a dismal picture of the future as he arrived at New York aboard the S. S. Aquitania for a visit to America. He prophesied that the current depression would come to an end only after the entire Western civilization had collapsed.

FOUR DIE IN CHAIR; FIFTH GRANTED STAY

CONVICTED MURDERERS PAY PENALTY FOR CRIMES IN CHICAGO JAIL

INSANITY PLEA SAVES ONE

Three Doomed Men Met Death Gamely Fourth Victim Collapsed In Arms of Guard

CHICAGO, Oct. 16, (UP)—Four convicted murderers went to their deaths today in Cook county's electric chair.

A fifth obtained a last minute stay on insanity claims.

Three deputies half-carried Frank Jordan, slayer of two policemen, into the death chamber at 12:13 a. m. When the first charge of electricity his body was taken to a room ironically executioner had forgotten to strap them.

His legs were bound. The current was turned on again. Five physicians pronounced him dead at 12:17 a. m. His body was taken to a room ironically labeled "school."

Charles Rocco, who participated in the killing of a banker during a hold-up, followed him. The current began to flow through his body at 12:21 a. m. Smoke billowed up. But he still lived. The electricity was switched twice more. At 12:23, eight minutes later, the physicians listened at his chest. His heart had stopped beating.

Next was John Popescu, Rocco's partner in the murder of Courtney Merrill. Popescu quivered in the arms of the guards. He sank into the chair at 12:32 a. m. died at 12:38.

Richard Sullivan, co-slayer of a restaurant owner, was last. He seemed almost to swagger, despite the grasp of the deputies. The electrodes were placed on his head and right leg at 12:41 a. m. He died six minutes later.

Sullivan went to his death almost gayly, firm in the belief that his arch-enemy, Frank Bell, had preceded him to the chair.

"I don't mind dying so long as that rat, Bell, dies first," he said shortly before he left his death cell, where a small phonograph played a jazz song.

"And I couldn't bear to tell him that Bell received a stay of execution from Judge J. J. Kelly," said Warden David Money. Bell and Sullivan killed Chris Patras, owner of a Clark street restaurant. Bell confessed, implicating Sullivan.

About 150 witnesses sat in a dim ante-room. They gazed through a plate-glass partition into the brightly lighted death chamber. Among them was Ernest Schaeublin, who tackled Jordan on Michigan boulevard after Jordan had slain Patrolman Patrick Durkin and Anthon Ruthey in a gun battle.

Schaeublin laughed when told that Jordan had remembered and hated him to the last.

A deputy sheriff made a brief speech to the witnesses before the executions. He warned them against any display of emotion and added:

"I hope you realize that this exhibition is Cook county's warning to murderers."

LEAGUE WILL REQUEST U. S. PARTICIPATION

BRAND RULES THAT INVITATION WILL BE SENT TO UNITED STATES

ON MANCHURIAN SITUATION

Japanese Cabinet Official Ends Special Session Still Opposed To U. S. Intervention

BULLETIN
WASHINGTON, Oct. 16 (UP)—Fransis Gilbert, American consul at Geneva, will represent the United States at the League Council session on Manchuria despite Japan's expressed opposition, the United Press was told today in a usually well informed source.

GENEVA, Oct. 16, (UP)—Aristide Briand, as president of the League of Nations council, ruled today that an invitation will be sent to the United States to participate in the league's Manchurian discussion, over the juridical objections of Japan.

The question of United States participation was reopened when the council convened today.

Briand announced the council discussed the following questions:
The principle of inviting the United States to participate in a consultative capacity.

The terms of the invitation.
Japan's juridical objections, including the question of whether a majority or unanimity is necessary to extend the invitation.

Japan voted against inviting the United States yesterday but the council overruled her objection, 13 votes to 1.

"The whole object of the proposal to invite the United States is to find the best means to fulfill article two of the Kellogg pact in connection with our efforts to enforce the pact," Briand said.

Article two of the Kellogg pact states:

"The high contracting parties agree that the settlement or solution of all disputes or conflicts of whatever nature or whatever origin they may be, which may arise among them, shall never be sought except by pacific means."

Kenkichi Yoshizawa, Japanese delegate, told the council that his negative vote yesterday was not due to political reasons but to broader constitutional reasons.

TOKIO, Oct. 16, (UP)—The Japanese cabinet ended a special session today without deciding to resign from the league or otherwise act on the League of Nations decision to invite American participation in the Manchurian peace negotiations.

The cabinet could reconsider the government stand taken when Kenkichi Yoshizawa was instructed to oppose American participation at the council meeting at Geneva. Or it could contest the legal and constitutional rights of the league to invite a non-league member to join its discussions.

The cabinet was said to be waiting information from Washington which would indicate if the United States would accept the invitation over Japanese opposition.

OAKLEY'S

RECIPES

Autumn Salad

1-2 cups cooked prunes
4 teaspoons lemon juice
1-2 tablespoons sugar
1-3 cup pecans
3 to 4 oz. processed American cheese.

1-2 cup cream, whipped.
Cream the cheese and fold into the whipped cream. Seed the prunes and put through a strainer. Add the lemon juice and sugar. Line individual molds or paper cups with the cheese and fill center with prune mixture. Place in freezing tray of electric refrigerator. The cheese mixture will freeze in three to four hours. The prune mixture, being very sweet will be chilled but not frozen. Remove paper cups and serve. Serves six.

Date Cookies

2 eggs
1 cup butter
1 teaspoon salt
1 cup nutmeats
1 cup dates
3 1-2 cups flour
1 teaspoon soda
Cream the butter and sugar and add the well beaten eggs. Mix well. Add the nuts and dates which have been put through food chopper, and then the flour mixed and sifted with the salt and soda. One teaspoon of vanilla may be added if desired. Toss on a floured board and form into three long rolls. These rolls should be a little smaller than desired size of cookies. Wrap in oiled paper and store in bottom of electric refrigerator. To bake, slice thin, and bake in a hot oven (375 degrees) about 10 minutes. Makes about eight dozen cookies.

2-3 cup shortening
1 1-3 cups sugar
2 eggs
2 1-2 cups flour
3 teaspoons baking powder
1-2 teaspoon salt
1-3 cup milk
1 teaspoon vanilla

Cream the shortening, add sugar gradually. Add the well beaten eggs. Sift flour once before measuring. Sift together flour, baking powder and salt. Add to the creamed mixture alternately with the milk. Add flavoring. This dough may be kept covered in electric refrigerator before rolling and shaping the cookies with fancy cutters, or it may be formed in a roll, wrapped in waxed paper, stored in refrigerator and sliced before baking.

FARM NOTES

Good corn silage is an excellent roughage for fattening lambs. When properly fed, a ton of silage has a value of at least 800 to 1000 pounds of legume hay. Experiments by Professor King and associates at the Indiana Station, and also others, show that a high yielding corn silage rich in corn grain is worth one-half as much per ton as high protein hays.

It is always wise and profitable in the feeding of silage and farm grains to lambs to give them alfalfa, cover, or soy bean hay once a day, allowing same in the bunks overnight.

A small allowance of supplement such as linseed oil meal, cottonseed meal, or an acceptable high-protein "superior variety" blend; about one-tenth pound per lamb daily of a supplement, running 30% protein or better, is about right.

Bear in mind that coarsely ground corn and cob meal is a safer feed for full feeding with the ration outlined herein above than straight corn or wheat grain. The bulky cob meal prevents over eating, thus it reduces, greatly, the lamb losses; hence on Corn Belt farms corn and cob meal is a real asset in lamb fattening yards.

A STRANGE CASE

KOKOMO, Ind., Oct. 16 (UP)—Harry J. Moore, a former minister

who is said to have at one time held a \$7,500 pastorate, has presented local authorities with a strange case. Apparently Rev. Moore, is suffering from a mental ailment, authorities say. He was taken into custody when found writing a letter which officials described as "mysterious." Sheriff Clifton Smallis said he did not know what disposition to make of the case, since Rev. Moore apparently had no relatives and no friends had appeared in his behalf.

Hoyt's Compound

Local Lady Says Gas Condition, Kidney Trouble and Rheumatism Completely Banished After Taking Hoyt's Compound

Druggists in this section are actually amazed at Hoyt's Compound success and are stating that never before in the history of the drug world has any product met with such success.

Crowds are thronging the National Cut Rate Store, south side courthouse, to see the Hoyt man who is there in person to meet and talk to all who suffer. The latest local person to add a name to the evergrowing list of Hoyt boosters is Mrs. Emma Turner, 306 south Jackson street, Greencastle, and who has been a resident of Greencastle all her life and who has a world of friends and acquaintances, makes the following statement:

"For the past seven years I have had a bad stomach and suffered with a terrible gas condition. I would have spells of belching and vomiting, gas would form in my stomach and press against my heart and cause terrible misery. At times I would bloat until it seemed a large iron band was drawn tightly around my chest. These spells would last for hours after eating."

"I also had a bad case of rheumatism for about two years and at times could hardly get around, and following this rheumatic condition, my kidneys became deranged and would cause me to get up several times each night. I had a dull pain across my back and I could hardly turn over in bed and when I would arise in the morning my body would feel chilled and stiff. I could hardly bend over to lace my shoes."

"During the day black spots would appear before my eyes and cause me to become dizzy."

"I have now taken nearly two bottles of Hoyt's compound, and am certainly a happy woman to realize that every trace of the gas condition is gone. I haven't a rheumatic pain in my body and I sleep sound all night and do not get up at all with kidney trouble. My appetite is good and what I eat digests perfectly and causes no misery at all."

"I am feeling better than I have in years and I want to give all the praise to Hoyt's Compound. I have given this testimonial of my own free will and it is absolutely true."

Hoyt's Compound is a mixture of natural medicine juices extracted from twelve of nature's finest roots, and herbs. It is a cleanser, purifier and tonic agent for the human system and will give your system the thorough cleansing it may have needed for a long time, bringing out old, foul impurities that might have been inside of you for weeks, or even months, and may have been the real cause all along of headaches, biliousness, dizzy spells, exhausted feelings, skin eruptions, sleeplessness, rheumatic and catarrhal affliction and other forms of suffering that you never could understand.

TIGERS MEET EARLHAM AT
BLACKSTOCK FIELD. CUBS
BATTLE JEFF

Both DePauw and the Greencastle high school football teams will see action tomorrow afternoon, the Tigers meeting Earlham at Blackstock field at 2:30 o'clock and the Cubs battling the strong Jeff eleven at Lafayette.

Local fans are confident that Coach Gaumy Neal's Old Gold athletes will take the Quakers into camp by a comfortable margin. The Methodist mentor, however, is worried about the forward passing game used by the Richmond aggregation and during the final practice of the week this afternoon, he stressed defense against aerial attack.

With the exception of Myers, veteran guard; Lortz, promising sophomore center, and Bundy, reserve end, the DePauw players are in good physical condition for Saturday's encounter. The three boys on the hospital list, it is believed will be in shape for the inter-sectional tilt with Boston university here next week.

Coach Marion Crawley's high school squad is not in the best of condition for the Jeff game. Injuries and ineligibility have resulted in a major problem for Crawley. However, he will take a squad of fighting Purple and Gray warriors to Lafayette tomorrow, each boy determined to put forth his best efforts to upset the powerful up-Monon gridgers.

TWO NATIONS FAIL IN PRICE FIXING PLANS

WASHINGTON, D. C. (UP)—A striking similarity between government efforts in the United States and Brazil to stabilize farm products through federal intervention in speculative markets was pointed out here recently.

In Brazil the government sought vainly to stabilize coffee prices—in the United States, the federal farm board attempted to stabilize wheat and cotton prices.

Persons in close touch with the situation pointed out that Brazil's coffee price control experiment proved unsuccessful to the point of disaster.

The Brazilian coffee "valorization" withdrawing it from the market.

effort was described in a recent statement by the Bank of Brazil as a "ruinous venture." The bank attacked the venture and recalled that for the last two years the Brazilian government has attempted "by all conservative means to valorize coffee"—that is to give it an artificial price in excess of the market quotations, which are subject to the operation of the natural economic law of supply and demand. The Brazilian experiment, it is now officially admitted, after numerous futile attempts, has placed the farmer there in a "worse position than before."

Brazil's experience was in brief an attempt to control prices by buying up part of existing supplies and withdrawing it from the market.

INQUIRES ABOUT LONG FARM
LAFAYETTE, Ind., Oct. 15 (UP).
—Ripley's "Believe It or Not" draw-
ings, appearing in many newspapers,
brought a letter here to William
Dresser from a Munich, Germany,

correspondent.
One issue of the cartoonists draw-
ings pictured a "Tippecanoe" county
farm which is 12 miles long, but only
85 feet wide.
Richard Hansen, in Munich, saw

the pictorial and was aroused by cur-
iosity. He wrote, asking Dresser what
use could be made of such a strip of
land.

Real estate agent Dresser said he
would tell Hansen that the strip is
the abandoned bed of the Wabash-
Erie canal, a fertile farm land.

Those from out of town who at-

tended the funeral of Roscoe Hibbs
Wednesday were Mrs. Carrie Miller,
Mrs. Liburn Hepler, Mrs. Della Abby
and Mr. and Mrs. Mason of Brazil;
Mr. and Mrs. Sam Nation and family
of Terre Haute; Mrs. Wilson, Mrs.
Carrie Rumley, Mrs. Judy Rumley and
Edward Rumley of Amos; Ernest
Smith and daughter of Indianapolis;
Mr. and Mrs. James Smith and Mr.
and Mrs. Earl Smith of Bainbridge.
